James Holloran of Montpelier was trrested last evening by Officer Frank Baldwin on the charge of breach of peace, it being claimed that he had mixed things up at his home to a considerable extent and that the actions of Sunday were but one of a series of simflar affairs that have taken place. The complaining witness was his wife. It is said that he tipped chairs over and tried to get the art square from under the furniture without removing the latter and did other similar capers.

SITUATION UNCERTAIN.

There Is No Confirmation of Report That Petrograd Has Fallen.

Paris, Oct. 20.—Contradictory reports are received from Russia and it is impossible to confirm rumors that Petrograd has been taken by the northwestern Russian army under General Yudenitch. It seems certain that the Yudenitch troops are advancing and must be at the gates of the city, if they have not already taken it.

Mr. Duncan broken bones. Henry Woodward sufwas in attendance at a Rebekah meetng at Plainfield Friday night, returning home shortly after midnight and reaching home. Saturday noon it was decided an operation was necessary and ne was rushed to the hospital.

Alderman Henry Alexander's attenion was called to the bazardous condition of the South Main street covered bridge Saturday afternoon and bridge was greatly in need of repairs. The large beam underneath the bridge on the east side of the north end had rotted away so much that an inch bolt which connected this beam with a large brace on the inside of the bridge was free of all wood. Mr. Alexander, with the steel tip of an umbrella, broke off large pieces of the beam. Contractor Adolphus B. Lane was summoned to examine it and agreed to make re pairs to-morrow. This bridge, similar to that in Plainfield, where the fatal accident occurred Saturday afternoon to the young ball players, has been the source of considerable discussion at various city council meetings. The counlmen ordered, a few weeks ago, plans to be made by Frank O. Lee, city engi neer, and these drawings are on his tables at the present time. As soon as they are completed they will be submitted to the state engineer for approval.

An echo of a score of years ago was furnished by a clipping from The Times which was brought to the office to-day y Donald Smith. Several of the peras mentioned in the article have since bassed away. Many people will remember the incident which it describes, as ollows: "The celebration which will N. E. Tel. 504-M BARRE, VT. Fairmont park has a hit of history onnected with it. On March 1 at a gathering of the Scotch and Irish elements of this city a bet was made beween two of the Scotchmen and Alderman S. J. Kingston and Michael Keefe that the Union Jack of Great Britain would float over Bloomfontein and Pretoria by July 4. The bet was two earboys of muriatic acid. At that time Alderman Kingston was working for McMillan & Stephens, and he was so sure that he would win that he went into the polishing business himself so that he might find a use for the acid. But he has lost and will have to buy his own acid. The committee having in charge the celebration have made arrangements with the new band to furnish music and the start will be made from the postoffice at 2 p. m. sharp. Able speakers have been provided, they being Dr. J. H. Jackson, who will speak for 'The Briton and the Boer'; G. T.
